Our Story

We are living in the era of speed & technology. No one has time for breakdowns. Just over a year ago we became fascinated by the idea of cars running over road without any breakdown of punctures. What if we could invent something that can provide every driver a puncture free journey ?

It may sound crazy but we wanted to make it possible because it can definitely bring a revolution in automobile sector.

By doing an intensive market survey and considering the need of the hour, our company Extrabounce International Pvt Ltd came up with the idea of Anti Puncture Gel.

After so many research trials and demonstrations we developed FIXXIN Anti Puncture Gel. As the name itself suggest Fixxin provides instant & permanent puncture protection for the life of the tyre.

The brand Fixxin also provides Car & Bike care products like Car/bike shampoo, Car/bike Polish, Waterless car wash, Multipurpose/Glass cleaner, Air Freshner spray & Air Inflator.

Fixxin believes in **"WE MAKE LIFE EASY"** so we are working on including more & more products to serve our customers.

Business Opportunities

India is a mega market for the most profitable franchise businesses. The franchise set up is rapidly expanding in our country.

We are offering great opportunity to start a profitable business with low investment. Our franchise model consists two levels-

A. District level

B. City level

We will award an exclusive franchise to our business partners.

Our potential Business Partners can be any budding or experienced entrepreneurs as we are offering full marketing, advertising and technical support to them.

Future Prospects

Soon we are launching more automobile related products.

We are also working on home care product range in future.
